

# WESTFIELD MIDDLE SCHOOL CONSTRUCTION UPDATE

## WESTFIELD WASHINGTON SCHOOLS

### Pardon our mess...

### During the month of April...

We will finally see dirt being moved on the new construction and renovation of WMS.  
We will communicate the different phases with you as they happen.

The renovation is scheduled to begin on or around **April 30, 2018**.  
The entire project is scheduled to be completed **January 2020**.

# WESTFIELD MIDDLE SCHOOL CONSTRUCTION UPDATE

  
**WESTFIELD  
WASHINGTON  
SCHOOLS**

## Phase 1...

### Utility Work in North WMS Parking Lot

Scheduled Completion: **August 2018**

- Roughly half of the lot will be **temporarily closed on or after April 30** through the summer of 2018 for utility work.
- Overflow parking will be across Shamrock Drive by the band trailer.

### NEW Administrative Offices / NEW Hallway to West Side of Building

Scheduled Completion: **Late October 2018**

- WMS will have a secure entrance into the building consistent with our elementary schools and WIS. Once completed, visitors will go through the admin office for building access.
- The north cafeteria and cafeteria line will be shut down during construction. This will have little impact on the flow of lunch during the day. Most students use the south serving line and all students sit in the south cafeteria. Entry and exit to the cafeteria will be across from the media center in the W400 hallway.
- A new hallway will be constructed in the north cafeteria to ease west side hallway congestion and will connect to the W100 hallway.

### Pool Renovated to NEW Band & Choir Room / NEW Hallway on East Side of Building

Scheduled Completion: **Late October 2018**

- The new east side hallway will ease congestion to the east side and connect to the E800 hallway.
- Door 13 will be closed until completion of the renovation. East side students will exit to the bus lot in the afternoon through the south main entrance.

### NEW Construction on West Side of Building

Scheduled Completion: **Spring Break 2019**

- Construction to include a new gym and locker rooms replacing current east gym and locker rooms, as well as added classrooms.
- Doors 1-5 will be closed for the duration of construction.
- Door 11 will be the athletic practice pick up on the south side of WMS.

## Phase 2

Communication will come in the fall of the 2018 school year and will reflect projects beginning the end of October 2018.
